LAP18E-GM Notebook Storage Cart

FEATURES & BENEFITS

- Stores and charges up to 18 laptop computers in individual compartments and provides room on the top shelf for a work surface or for use with printers
- Top shelf comes with a non-slip rubber mat and features a grommet hole at the back for cord management and access to electrical units
- Laptops lay flat, not on their side, when storing and charging
- Includes two UL listed, 9 outlet electrical units with surge protection, on/off switch and 20' power cord for charging laptops and powering other equipment. Note: electrical units must be plugged into separate circuits to prevent tripping breaker when all outlets are in use.
- Electrical units can be installed inside the front or the back of the cart
- Optional automatic timer/charger unit available providing ability to charge all laptops using one circuit
- Also includes an additional three-outlet electrical unit that attaches to the back for power equipment.
- Rear grommet holes and cord winders on the back panel allow the extra electrical power cord to be neatly wound up out of the way when moving the cart from one place to another
- Steel construction with bolting doors and a re-programmable padlock helps to deter theft, padlock included
- Doors, rear and side panels are perforated to allow the ventilation of equipment when charging
- Built in handle aids in moving the cart
- Standard 5" casters provide easy mobility over carpet

DIMENSIONS

LAP18E-GM Overall: 36¹/₂" W x 20¹/₂" D x 40¹⁵/₁₆" H
Each Laptop Compartment: 14¹¹/₁₆" W x 17" D x 3" H

COLOR/FINISH

- LAP18E-GM is finished in a Grey Mist (-GM) powder paint

Product Specifications

LAP18E-GM NOTEBOOK STORAGE CART

Bretford's LAP18E-GM laptop storage cart stores and charges up to 18 computers. All steel construction with multiple-point locking doors and padlock deters theft and helps ensure the security of equipment. Finished in Grey Mist powder paint. Comes with two UL listed electrical assemblies and 5" casters, two rigid and two swivel with locking brakes.

STANDARD EQUIPMENT

- 36¹/₄" W x 20¹/₄" D Top Shelf (1)
- 36¹/₄" W x 20¹/₄" D Bottom Shelf (1)
- 34¹/₄" W x 17" D Interior Shelves (7)
- 30⁷/₈" H x 18¹/₂" W Outer Panels (2)
- 30⁷/₈" W x 18¹/₂" W Inside Panels (2)
- 34¹/₂" W x 30⁷/₈" D Back Panel (1)
- 30⁷/₈" W x 17¹/₈" D Doors (2)
- Electrical Units (2)
- Leg Supports (4)
- 5" Plate Casters (4)
- Handle (1)
- Three Dial Combination Padlock (1)
- Rubber Mat (1)

WEIGHT AND FREIGHT CLASS

Model LAP18E-GM: Freight class 70.
Ships ready to assemble in two (2) carton packs

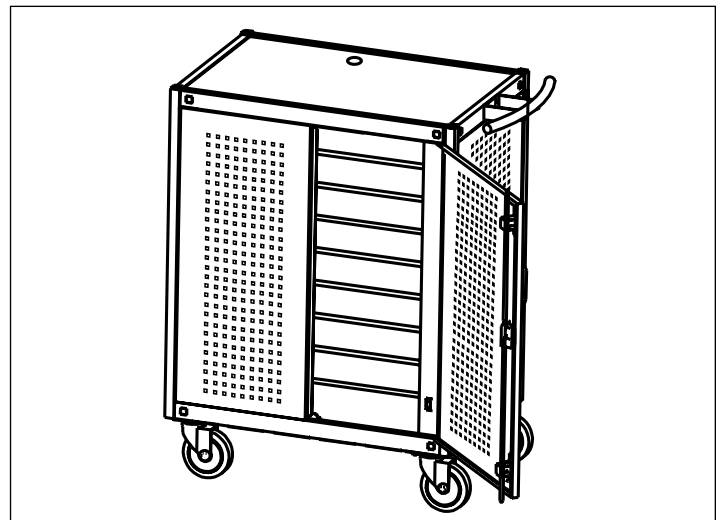

SUGGESTED SPECIFICATIONS

LAP18E Notebook Storage Cart shall have one (1) 36¹/₄" W x 20¹/₄" D, 18-gauge steel work surface shelf which shall have one (1) 2" diameter grommet hole in rear of shelf to feed cords to electrical units. The underside of the work surface shall have one (1) 18-gauge stiffener with two 28.5mm holes for optional security cable. Work surface shall be covered with black rubber mat so equipment does not slide. Cart shall also have one (1) 36¹/₄" W x 20¹/₄" D, 18-gauge steel bottom shelf, eight (8) 34¹/₄" W x 17" D, 18-gauge interior shelves, two (2) 30⁷/₈" H x 18¹/₂" W, 20-gauge outer panels, two (2) 30⁷/₈" W x 18¹/₂" W, 20-gauge inside panels, one (1) 34¹/₂" W x 30⁷/₈" D, 20-gauge back panel and two (2) 30⁷/₈" W x 17¹/₈" D, 20-gauge doors. Doors shall have multiple-point locking system with re-programmable, three-dial combination padlock to lock doors when not in use. Interior shelves shall have 2 x 2 cut-outs in rear corners to aid in cord management. Legs attach to panels with 13-gauge steel mounting bracket with ⁵/₁₆" square head bolts and hex nuts. Legs are 18-gauge, 1" square tubular steel 34⁹/₁₆" long. Interior shelves attach to side and back panels by support tabs.

Plastic push-in fastener support inner side panels. Back panel has two (2) 2" diameter grommet holes located at the bottom rear and on outside back panel there are two (2) cord winders for cord management. All panels shall have ventilation holes throughout to cool equipment when charging. Unit shall have two (2) UL listed, nine (9) outlet electrical units which shall attach inside the cart to top and bottom shelves. Electrical units can be installed inside the front or back of the cart. Unit also shall have one three (3) outlet electrical unit which attaches to the back of the unit. Unit has four (4) 5" plate casters, two rigid and two swivel with locking brakes which shall bolt to bottom of cart with twelve (12) ⁵/₁₆" x ⁵/₈" bolts. Cart shall have one (1) ergonomic push handle to easily move cart from one location to another. Each model painted in grey powder coated paint. Ships KD.

ELECTRICAL UNIT SPECIFICATIONS: Electrical units mount in the front or back of the cart for easy access. Each unit is UL listed, surge protected, includes a 20' power cord, and has an on/off switch located at the base. When using both electrical units at the same time, each unit must be plugged into outlets on separate electrical circuits. This is to prevent the overload and tripping of the circuit breaker.

OPTIONAL AUTOMATIC TIMER/CHARGER UNIT: An optional automatic timer/charger unit may be added to the cart. Each 9-outlet electrical unit attaches to the timer unit requiring only one cord to be plugged into a circuit. Only one set of 9 laptops will charge at a time. When they are finished, the timer will switch to the other electrical unit to charge, thus allowing the use of one circuit rather than two.
