POLY-COLLECTOR™ 66

Get your waste collection on the move.

The Poly-Collector Portable Hazardous Materials Collection Systems put mobility into containment so you can go where the waste is. These caster-mounted containers are built tough from UV-stabilized polyethylene for excellent chemical resistance to a broad range of industrial materials.

Both models are equipped with the unique Poly Drum Funnel 55 to prevent over-spills while allowing multiple oil filters, pails, and cans to drain at once. Both products are ideal for collecting waste oil, antifreeze and chemicals. The Poly-Collector 110 outer shell holds 105 gallons, with an inner drum that holds 55 gallons. A twist-on lid ensures safe and easy closure. The Poly-Collector 66 poly outer shell holds 66 gallons while the inner drum holds 55 gallons.

JOB HUT™

Outdoor storage has never been so practical...or so affordable!

If easy access, cost efficiency and a large storage area are what you need, Job Hut is your answer.

We've designed the Job Hut to act just like an extension to your building. It's big. It's safe. It's easy to use. And it's cost effective!

An extra large storage area lets you store up to eight 55-gallon drums right on their pallets! Its low profile design allows for easy access. And it's forkliftable from all sides for effortless handling.

How safe and secure is the Job Hut? Tough polyethylene construction means it won't rust or corrode, while UV inhibitors make it extra durable for outdoor use. A large 75-gallon sump capacity eliminates the risk of spills or leaks, and structural foam grates remove for easy

cleaning. What's more, molded-in vents reduce fumes and condensation inside, while heavy-duty hinges and lock keep contents secure.

The Job Hut offers substantial savings when compared to similar metal or concrete storage buildings, while providing superior performance. Job Hut's optional multi-purpose ramp facilitates loading your drums into the unit. Safe, secure, and cost-effective. What more could you ask for in an outdoor secondary containment unit?

HAZARD HUT®

The solution to your indoor storage problem is outdoor containment.

When floor space is at a premium indoors, take your hazardous materials outdoors with the Hazard Hut. One-piece molded 100% polyethylene construction means there are no joints or seams to leak. Molded-in side vents reduce fumes, while UV protection makes it a durable performer outside. Removable grates make it easy to clean and the 72-gallon sump capacity ensures leak and spill containment.

Security is no problem. The big double doors provide easy access for up to four 55-gallon drums while their double-wall construction and heavy-duty hinges and lock latches keep contents secure. Four-way forkliftable design makes the Hazard Hut easy to handle.

-DRUM HARDCOVER & SPILLPALLET

Small footprint makes the 2-Drum Hardcover and Spillpallet ideal for indoor/outdoor storage of up to two 55-gallon drums. Roll-top design allows it to be used in limited space or next to buildings where swing-open doors would be a problem. Top or front loadable. Optional ramp attachment allows for easy loading. Lockable door! Used in conjunction with Poly-Spillpallet™ 2000 (Product No. 5253-YE). Optional drain. Shipped knocked down only.
