A. 6200 Series-Commercial Duty Park-A-Bike

This heavy-duty commercial series provides extra strength and longevity. The grid section features grid poles that are welded top and bottom to the frame, protecting the integrity of the rack.

The grid section, along with its legs and cross section, are then electroplated in a chromate solution, after which an ultra seal is applied giving the rack a chrome sheen. An independent laboratory, Scientific Control Laboratories, Inc., did extensive testing on this new electroplating process. They found that hot dipped galvanizing showed 97% white corrosion after twenty-four hours of salt spray testing, while electroplating showed only small traces of corrosion after 288 hours. Graber is adopting this breakthrough process providing our customers with the best quality and aesthetically pleasing product available.

B. 6400 L.E. Series

This moderately priced series allows you to have some of the amenities of our commercial series at a lower cost. All of its tubing components are pre-galvanized to prevent rust. The grid poles are riveted to the top and bottom frame. When it is installed the grid sections bolt to the frame which provides its stability.

C.62 10 Mighty Mite

For tighter fits or moderate traffic, the Mighty Mite six-bike rack is the prudent choice. Lightweight yet solid, it's ideal for small business or residential use. This economical bike rack parks up to 6 bikes, is lightweight, and can be used indoors or out. The Mighty Mite's 1" outer diameter, 16 gauge frame provides strength, and its weatherproof coating provides durability.

Specifications 6200 Series

Model	Bikes	Description	weight	length	width	height	Space Requirement
Single and Double sided units							
6201	18 (9 each side)	standard leg mount	110 lbs.	111"	43"	31"	111.5" x 126"
6203	9	standard leg mounts	74 lbs.	111"	28"	31"	111.5" x 72"
6205	10 (5 each side)	standard leg mount	62 lbs.	60"	43"	31"	66.5" x 126"
6207	5	standard leg mounts	48 lbs.	60"	28"	31"	66.5" x 72"
Add-on kit							
6206/6208		collar section	5 lbs.				

Specifications 6400 Series
