Good design entices and endures. Plainwell combines exuberant gesture in its arm with a commanding posture and stance in its sturdy frame. The harmonic balance invites attention and transcends time.

Plainwell, designed by Robert Chipman, ASLA, is both lyrical and robust. The subtle curve of the back and slope of the seat provide comfort. A hefty cast aluminum end frame, wood or aluminum seat and back slats of generous substance and dimension, and stainless steel hardware, provide exceptional strength and durability. Plainwell is manufactured of the finest quality materials to Landscape Forms demanding standards.

While Plainwell has its imitators, they are no match for the original. The choice of discriminating design professionals and clients for nearly a decade, Plainwell consistently performs under the rigors of public use in city parks and streetscapes, shopping centers, mixed use malls, and healthcare environments. A coordinating litter receptacle unifies the esthetic, whatever the setting.

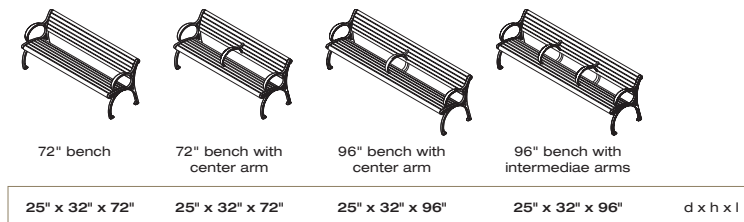

Our Purpose Is To Enrich Outdoor Spaces

We believe in the power of design and its ability to influence and elevate the quality of public space. High quality products and outstanding customer experience makes us one of the world's premier designers and manufacturers of outdoor commercial furnishings.

Plainwell™ Specifications

Benches

The Plainwell bench is available with seats constructed of aluminum or wood. The aluminum end frames on the wood bench and the all aluminum bench may be specified with Pangard II® powdercoat in standard colors; optional colors available for an upcharge. Available in two lengths, the 72" and 96" bench may both be specified with a center arm. The 96" bench may also be specified with 2 intermediate arms, placed at equal intervals. Freestanding/surface mount support is standard.

Finishes

All metal is finished with Landscape Forms' proprietary Pangard II® polyester powdercoat, a hard yet flexible finish that resists rusting, chipping, peeling, and fading. Call for standard color chart. Interior woods are finished with Landscape Forms' exclusive LF-80 wood finish, a clear catalyzed lacquer. Custom stain may be specified for maple and red oak for an upcharge.

To Specify

Bench: Select Plainwell bench, 72" or 96" length, wood type or aluminum seat and powdercoat color. Specify with or without center arm or intermediate arms for 96" bench. For jarrah wood, indicate for interior or exterior use.

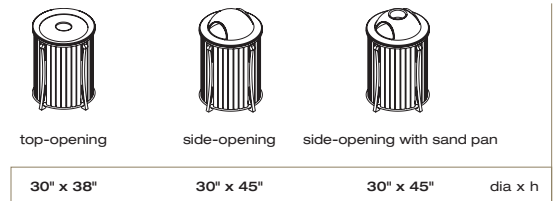

Litter Receptacle: Select Plainwell litter, wood type or aluminum side panels, powdercoat color. Specify top or side opening; if side opening is specified, select with or without sand pan.

Interior Wood Choices: Maple, Jarrah, Red Oak

Exterior Wood Choices: Jarrah, Ipe

Litter Receptacles

The Plainwell litter receptacle has a 35-gallon capacity, and includes a black polyethylene liner. Side panels are available in aluminum or a selection of woods. Metal parts finished with Pangard II® powdercoat available in standard colors; optional colors available for an upcharge. Frame and aluminum side panel may be specified in different colors. Rotomolded black polyethylene top is attached by cable to the receptacle. Lid available in top opening or side opening styles. Freestanding/surface mount support is standard. Optional sand pan available for side opening receptacles. Unit is emptied by lifting bag from top.
