AFG80TB

COVERED GRILLS promote fire safety by reducing floating cinders! The hinged cover holds in smoke and heat to give food that "smoked flavor", and also helps protect the inner parts from the elements. The cover is made of 14 ga. sheet steel. The heavy fire box is made of 10 ga. steel plate with 11 ga. steel end panels. Both fire and cooking grates are fabricated of 1/2" dia. steel bars which are non-removable, yet can be tipped out for easy cleaning. Two sizes are available. Both have four draft vents and 360 degree rotation for heat and smoke control. These units are finished with a high heat, non-toxic, black enamel, and come with a 3 1/2" o.d. pedestal, 40" long for permanently mounting in-ground.

GROUP GRILLS

NOTE: HOT ASH RECEPTACLE now sold on Pg. 27

SPD450 (1368 SQ. IN. GRILL AREA)

An excellent large group grill for shelters. Among the many features of this huge grill are the adjustable 4-position fire grate and 2 hinged cooking grills. The cooking surface alone is 38" x 36", which gives you 1368 sq. in. of grill area. Chains welded to each cooking grate limit their travel and enhance safety. All grates are made of 1/2" bars, welded on 1" centers and have heavy duty cool spring handles designed for public use. The fire grate has a formed lip to retain the burning coals. The entire fire box is made of 3/16" reinforced welded steel and is mounted on a 6" square pedestal with a 12" x 12" x 3/8" base mounting plate. Four 1/2" x 6" anchor bolts are furnished. A large ash lip helps prevent hot coals from falling out and also reinforces the fire box. A convenient 12" x 36" x 3/16" utility shelf is bolted on one side of the fire box. The overall size (including shelf) of this massive grill is 51" x 43". Unit is completely finished in non-toxic heat and rust-resistant black enamel and weighs 460 lbs.

SB3628U (1008 SQ. IN. GRILL AREA)

This popular group grill has 2 separate cooking grates that are adjustable to 4 levels (in the anti-theft designed slots). This allows the user to cook different foods at the same time. All grill handles have heavy-duty cool spring handles. The grill bars 1/2" steel welded on 1" centers. Each grill measures 14" x 36" giving you a total of 1008 sq. in. of cooking surface. This model also features a 10" x 28" x 3/16" utility shelf that provides a convenient work space for the chef. The fire box is 3/16" thick steel that is 36"W x 28"D x 10"H with a large formed ash lip to reinforce the fire box and help prevent hot coals from falling out. The fire box is strengthened on the bottom with supporting gussets and mounts on a single 4" square steel pedestal with a 12" x 12" x 3/8" base mounting plate (4 1/2" x 6" anchor bolts are furnished.) This complete unit is finished in non-toxic, heat and rust-resistant black enamel and weighs 246 lbs.

SB16 GRILL (300 Sq. in. grill area)

America's Favorite for many years. It is our most vandal-resistant pedestal grill. The 20" W x 15" D x 10" H fire box is made of 3/16" thick steel with a continuous weld type construction. A formed ash lip provides extra reinforcement and helps retain coals in the box. The 300 sq. in. cooking grill has 1/2" steel bars welded on 1" centers and adjusts to 4 heights in the anti-theft designed slots. The grill handles have heavy-duty cool spring grips designed for public use. This unit comes standard with rounded corners, drain holes, and 360 degrees rotation on a 41" long theft resistant pedestal. The standard finish is non-toxic, heat and rust-resistant black enamel. Two pedestal choices: 2 3/8" O.D. or 3 1/2" O.D. galvanized.

SF16 GRILL (300 Sq. in. grill area)

SF16 grill is very practical and designed similar to SB16. This model has a theft-resistant cooking grate that not only adjusts to 4 levels, but also flips back for easier fire starting and clean out. The grill is fabricated of 1/2" steel bars welded on 1" centers with non-removable heavy-duty cool spring handles designed for public use. This unit is 20"W x 15"D x 10"H and gives 300 sq. in. of cooking surface. The 3/16" thick steel fire box has a continuous weld type construction. An ash lip helps retain coals and reinforces the fire box. Standard finish is non-toxic, heat and rust-resistant black enamel. Other standard features are rounded corners, drain holes and 360 degree rotation on a 2 3/8" O.D. x 41" long galvanized pedestal. This unit is theft-resistant and weighs 79 lbs. Two pedestal choices: 2 3/8" O.D. or 3 1/2" O.D. galvanized.
